

# Moving house?

## Don't forget to clear the loft!

- Moving house is a great time to have a sort out. Start by clearing your loft, garage and shed. Hopefully you should then have room to put packed boxes from the rest of the house.
- Throwing out anything you don't want is a good place to start. Divide rubbish, recycling, items to sell and items to donate. This is also a great time to work out what you need to put into storage.
- Cancel any regular deliveries, such as newspapers and milk and start eating your way through the food in your freezer.
- Look online or contact your local destination council for information on rubbish and recycling collection days.
- Its always nice to have a fresh start. Have professional cleaners go through your new place before you move in.
- Arrange any babysitting or pet sitting for moving day well in advance.
- If you take regular medication, visit your doctor in advance and stock up.
- Get cash out for basic supplies etc.
- REMEMBER. When choosing a removals company, always make sure they belong to the British Association of Removers. We work with Moores Removals. Please contact them on 07989 748 772 for a free quote.
